Services Rate Sheet

The rates on this sheet are for consulting services provided by GAA Custom Electronics, LLC, directly to the client. Fees are based on your specific requirements and are negotiable for specific circumstances. If you have any questions or comments about this rate sheet please do not hesitate to contact us. We strive to provide high value, high quality work with low overhead.

Rates:

Rates are in US Dollars (USD)

- First 30 minutes - Free
- Short email or phone reply requiring no additional research - Free
- Hourly - $140, billed in 1/2 hour increments with a minimum 1 hour start rate
- Daily - $1120
- Weekly - $5600

Daily and Weekly rates are based on the following assumptions:

- One day is 8 hours in a single calendar day
- One week is 5 days in a single calendar week

The rates above are for work that does not require travel to the customer's site. Considerable savings can be accomplished by doing the work using telephone, e-mail, video conference call, or other Internet technologies. I am familiar with online conferencing with or without video.

If the work does require travel, the following conditions apply:

- Consultant will book reasonable travel arrangements, and bill Client cost plus 10%
- Consultant will book reasonable lodging, meals, and local transportation expenses and bill Client cost plus 10%
- Clients will be billed for the consultant’s downtime associated with traveling to and from our office and project site at the consultant respective rate.
- Use of personal vehicle will be billed for reimbursement on a 57.5 cents per mile basis

Additional expenses that may be required (e.g., specialty insurance, materials, printing, non-standard, client-required hardware or software or licenses) will be billed on an actual cost basis.

BILLING PROCESS

Ongoing projects are invoiced monthly for progress billing projects. Single instance technical support invoices are issued daily, after the services are delivered. The Invoices include time, expenses, and sales of our products accrued during the invoice period.

TERMS AND LATE FEES

Payment of invoices is due within (30) days from the invoice date. Invoices not paid within this term are subject to a 1.5% monthly finance charge. Accepted payment methods are credit card, check, or electronic funds transfer.

INTELLECTUAL PROPERTY

GAA Custom Electronics, LLC publishes the designs for **our standard products** under open licenses. Hardware designs are released under the CERN Open Hardware Licence Version 2 – Weakly Reciprocal (CERN-OHL-W-2.0), controller firmware under the MIT License, host application software under the GNU General Public License v3.0 or later, and documentation under Creative Commons Attribution 4.0. Under these licenses you may use, study, modify, repair, reproduce, and distribute these designs, including commercially, subject to the terms of the applicable license. The trademarks of GAA Custom Electronics, LLC – including "GAACE," "MIPS," and "Astraea" – are not licensed and remain the property of GAA Custom Electronics, LLC.

Custom development funded by a client is treated differently. Work developed under a client-funded engagement, and any intellectual property specific to that client's proprietary requirements, belongs to the client and is not published or reused by GAA Custom Electronics, LLC without the client's written consent. Such work is typically covered by a separate nondisclosure agreement. Where GAA Custom Electronics, LLC funds development at its own expense – which we often do when the result would benefit other researchers – the result is the property of GAA Custom Electronics, LLC and is generally released as a standard product under the open licenses described above.

THIRD-PARTY WARRANTIES

GAA Custom Electronics, LLC makes no warranties, expressed or implied regarding third-party software and/or hardware and/or technology used in their applications and/or systems. All third-party software, hardware and technology warranties are the direct responsibility of the respective vendor or manufacturer. The inclusion of products suggested for purchase by GAA Custom Electronics, LLC does not constitute a warranty regarding product performance or use. Any information regarding performance or use is only offered as suggestions based on past experience or readily available reviews.

GOVERNING LAW

This agreement shall be governed by and construed in accordance with the laws of the State of Washington in the United States of America.
